dermalogica[®]
a skin care system researched and developed by The International Dermal Institute

HINTS & TIPS

When having a pedicure you are advised to wear flip-flops or open toe shoes to allow your nails to dry easily.

When having a tan applied it is advisable to wear loose fitting garments, preferably in dark colours and flip-flops.

When having a waxing treatment please avoid wearing tight fitting clothing.

When having a Dermalogica Body treatment it is advisable to bring a spare pair of briefs. However the salon does provide disposable briefs if preferred.

For the bikini wax, underwear should be left on. Alternatively swimwear can be worn to give a guideline as to how much waxing needs to be done.

GIFT VOUCHERS

We are happy to offer gift vouchers for all of our treatments, these can be presented in money value or by treatment name. Gift vouchers are non refundable and are valid for six months.

RESERVATION POLICY

A deposit of 50% is required for all treatments of 90 minutes or more at time of booking.

CANCELLATION POLICY

All appointments cancelled with less than 24 hours notice will incur a 50% cancellation fee. For all missed appointments the full treatment price will be charged.

MOBILE PHONES

Please respect the peace and tranquillity of the salon and switch off mobile phones.

RADIESSE

Soft, Safe and Simple

If you would like to have a younger, more rested appearance, enhance your existing features, defy age and gravity and increase your confidence – without invasive surgery, scarring or waiting to see results: Radiesse is your answer.

Radiesse is a non-animal product and is made up of synthetic calcium hydroxylapatite which is an ion found in the skin, organs, bones, teeth and tissues in every part of the body. It consists of microspheres that are suspended in a carrier gel and it is this that gives the instant 'lift'. As the gel is broken down the calcium and phosphate ions provide a scaffold effect which enables the body's own tissue to infiltrate it and give a further 'lift'. It is this process which gives the lasting soft and natural results.

As Radiesse is biocompatible it will not produce a toxic or allergic response. Radiesse has been tested in trials for over 7 years and has shown to have excellent safety and efficacy results. The results can last up to 2 years but the patient must expect to experience swelling and bruising which can persist for several days.

MEDICAL SKIN PEELS

The Medical Skin Peel used is the L.A. Peel formerly known as Jessner's Peel. The L.A. Peel and its variants have been used for over a century. An L.A. Peel smoothes and rejuvenates sun damaged skin and can treat pigmentation. Acne and wrinkles are treated with significant visible exfoliation and minimal complications.

For prices or to book an appointment or a consultation with Belinda please contact the salon.

At Clitheroe Beauty Centre we are committed to offering a full range of high quality beauty treatments in a friendly and calm environment. We are a family run salon and we take pride in the personal and friendly service we offer. Our aim is to ensure you always feel welcome within the salon and to ensure your total relaxation.

dermalogica®

a skin care system researched and developed by The International Dermal Institute

Dermalogica skin care is a simple, serious and unique skin care system. Dermalogica is founded on the belief that good skin care is not about pampering or luxury...any more than brushing your teeth or washing your hair is. Good skin is never just a result of using great skin care, it's about using the right skin care for your unique skin type at home, good advice and regular facials. Our customised therapeutic facials will give your skin a boost to balance it on the surface and make it look and feel good. Targeting specific concerns from acne, dehydration and environmentally sensitised skin to sun-damaged and prematurely aged skins.

Helping to restore optimum skin health.

A unisex product suitable for both men and women.

Belinda Done RGN Aesthetic Nurse of The Evergreen Clinic Ltd is now available for treatments within the salon. She has over 8 years' experience in facial aesthetics, is trained in advanced techniques and she is one of the leading practitioners in this field.

BOTOX® / VISTABEL®

Botulinum Toxin can be used to soften lines of expression such as crows' feet, frown lines and forehead lines. It can also relieve migraines and tension headaches and excessive sweating of the armpits. A minute quantity is injected into the muscles that cause lines. Discomfort is minimal and you can usually see results in 3 to 14 days.

DERMAL FILLERS

Fine lines, wrinkles and folds are filled and corrected. These can be wrinkles between the nose and the corner of the mouth, between the eyebrows, around the mouth and the crow's feet wrinkles around the eyes. Mouths can become fuller lips more clearly defined. Facial contours can be enhanced. In the deeper living layer of the skin, which is the dermis, vital components such as collagen fibres, elastin and hyaluronic acid become less abundant. The dermis is then weakened causing a noticeable impact on the appearance of the skin.

The dermal fillers can help preserve and restore a youthful looking skin by treating directly into the dermis with a choice of Collagen or Hyaluronic Acid.

SCLEROTHERAPY

Sclerotherapy is a treatment that is used to eliminate thread veins from the legs and face. Thread veins can cause distress to both men and women taking them to the extreme of altering their dress style or leisure activities. A fine needle is inserted into the vein and an injection of a sclerosing agent is administered. Over a period of time, after a series of treatments, the capillary walls shrink together and the vessels will close down. As the vessels shut down and less blood passes through, death of the vessels will occur.

Whether you are celebrating a special event or catching up with friends, this is a great way to relax and have fun, there is something to suit everyone - for 3-6 people (for 5 people or more we cannot provide more than 4 treatments each). Includes complimentary refreshments! Choose the number of treatments you would like and then pick from the appropriate groups.

NOUVEAU LASHES

Semi permanent - lasts up to 2 months

Introducing a new dimension for your eyes

- Longer, thicker and fuller
- Natural looking
- Weightless for total comfort
- Resistant to water, sweat, tears, swimming, sleeping, sun and so much more

www.nouveaulashes.co.uk

COMING SOON!

NOUVEAU LASHES are state-of-the-art Semi-permanent lash extensions that give longer, thicker, very natural looking lashes. Soft and curved, Nouveau Lashes have a flat base and fine, polished tip, just like natural lashes, and are applied to each lash individually. Wearers of these beautiful, well defined lashes can shower, exercise and even swim without worrying about them falling out. Nouveau Lashes last up to two months or can be retouched every two to three weeks to help maintain fullness and will not cause natural lashes to fall out prematurely.

Please contact the salon for more information.
